History and French.
Geography.
Mathematics.
Drawing.

Matron:
Miss PHTRRKIN, Edinburgh College of Domestic Science.

Medical Officer:
Dr. MARY THACKWILL, M.B., B.S. (Lond.).
THE NORWICH TRAINING COLLEGE undertakes the training of teachers for the Elementary Schools. It was established in 1879, moved in 1892 to new buildings on the outskirts of the city, and enlarged subsequently by the addition of lecture rooms, and further successive improvements. The Hinds Howell Memorial Chapel of St. Etheldreda was dedicated in 1902.

Accommodation is provided for about 110 resident students, either within the building, in study-cubicles, or in small hostels close at hand, in study-bedrooms.

The College is a Church of England foundation, and services are regularly held in the Chapel. All students attend Prayers daily, and Evensong on Sunday, and there is a celebration of Holy Communion every Sunday morning. All receive instruction in Religious Knowledge, and take the Archbishops’ Examination for Students in Training Colleges.

The dioceses of Norwich, Ely, and St. Edmundsbury and Ipswich have rights of representation on the Governing Body.

THE COURSE OF TRAINING lasts for two years, and is terminated by an Examination conducted by a Delegacy appointed by Nottingham University College and the Colleges of the East Midlands associated with it. Successful students are recognised by the Board of Education as Certificated Teachers. Special training is provided for students wishing to teach infants, or elder girls, or to take up work in Rural Schools. While attention is given to the principles which underlie the teaching of all subjects, selection is made among them for the purpose of examination, along the lines of the student’s taste and talents. Advanced Courses can be taken in English, History, Geography, Biology, Music, Drawing, Needlework and Craftwork; the latter is taken at the Norwich School of Art. There is also a Special Advanced Course in Physical Training. A third year of training for special study can be arranged for any student who desires it.

The teaching experience of the students is gained in the schools of the city; they also observe methods and attend demonstrations in the City Schools, and pay frequent visits to Special Schools, Country Schools, and others of interest.

Physical training is an essential feature of the course, and all students are expected to join in the games. There are tennis and netball courts in the grounds, and hockey and other organised games are played at the adjoining Recreation Ground.

The students have full opportunity of attending the many good public lectures given in the city.

THE ANNUAL FEE for all resident students is £50, covering tuition, board and lodging, ordinary medical attendance, and a laundry allowance. Arrangements can be made, if it is desired, for the fee to be paid by instalments.

An Examination fee of £2 5s. od. is payable at the beginning of the second Summer Term.

Expenses for books, materials for needlework and handwork, and stationery, amount to about £10 in the two years, and there are small contributions to be made for sports, periodicals, etc. Students pay their own expenses on visits of observation.

THE ENTRANCE OF NEW STUDENTS takes place in September. Forms of admission should be obtained from the Principal, and returned on or immediately after October 1st of the year preceding entrance. The result of the application is made known to the candidate on February 1st.

Applicants must satisfy Whitehall and College requirements as to physical, intellectual, and moral fitness. As a general rule, the following conditions are required:—(1) A high number of “credits” in the First School Examination, followed by a year’s useful teaching experience; or (2) Two years’ work in the Sixth Form after the First School Examination. Some other outstanding qualification may, however, make up for deficiencies, and all circumstances are taken into consideration if the applicant is from East Anglia.

Each student is required by the Board of Education to sign a declaration that she intends to teach in an “approved” school after the completion of her training.

The Committee reserves the right to require any student to withdraw before the end of the course (without return of fee) if misconduct, loss of health, insufficient progress or other cause, approved by the Board of Education, should make such withdrawal necessary.
